Pivotree™ Connect

Turn weeks into days with accelerated integration

Seamless. Data Driven. Connected.

Achieving seamless integration is essential in today's connected world, yet enterprises still struggle with the challenge. Most systems integrations take weeks to implement, especially in highly complex environments.

Enter Pivotree™ Connect. In just days, this API-centric, hybrid enterprise commerce integration platform can seamlessly connect the tools and systems that help you run your business, no matter how disparate their architecture. It's frictionless integration at its best.

With any-to-any connectivity and built-in transaction monitoring tools Pivotree Connect - a repeatable and scalable integration platform - lets you configure alerts and email notifications about transactions to ensure staff get the early warning they need to respond to exceptions quickly, and proactively minimize any negative impact on your business.

Pivotree Connect Features

- ✔ Turnkey security, monitoring, and full visibility of data transactions
- ✔ An extensive library of API connectors
- ✔ Error handling, alerting, and guaranteed delivery of all transactions
- ✔ Fully automated deployment for infrastructure, connectors, and IP products
- ✔ Customized dashboards, configurable alerting capability, and workflow orchestration

Key Benefits

- Cost-effective
- AI Powered
- Low/No Code Design
- Secure and GDPR Compliant
- Reliable, Scalable and Elastic
- MACH-based Architecture
