

## Retail Fast Start

### Implement omnichannel order management in just 3 months!

#### The Fluent Commerce Effect

More than ever, companies are struggling to provide real-time control over their orders and their sellable inventory to their customers. This has driven the need for a true omnichannel order management solution that can fulfill orders efficiently and profitably. Built on MACH (Multiservices-based, API-first, Cloud-native, Headless) architecture, the Fluent Commerce order management system (OMS) provides real-time inventory visibility and allows for efficient order and return management across distribution centers, stores, and drop shippers.

1

Streamline inventory, location, and customer order management across applications

2

Automate order management across all systems for fast and efficient fulfillment

3

Get real time inventory visibility across channels for accurate order promising

4

Utilize stores as mini distribution centers for pick, pack, and ship processes

#### Providing Retail Fast Start OMS Together

Companies are choosing Pivotree's fast-start package along with Fluent OMS for its unparalleled time-to-value, increasing inventory accuracy and profitability dramatically. Our fast start setup was designed by our team of fulfillment experts to enable you to respond rapidly when demand, inventory, or delivery capacity changes. Pivotree recognized the need for a fast and easy-to-implement OMS during Fluent Commerce implementations, leading to the development of value-based, fast-start retail packages tailored for Fluent Commerce. These packages enable customers to quickly deploy omnichannel solutions and address supply chain challenges efficiently.

#### What Is The Retail Fast Start Package?

- ✓ Gets the OMS running in as little as 3 months.
- ✓ Provides key functionalities for inventory visibility and order management for a true omnichannel experience.
- ✓ Allows flexible add-ons tailored to your business needs.

#### Why Do I Need The Retail Fast Start Package

- ✓ Gets you up and running on a modern OMS faster with pre-built capabilities.
- ✓ Ensures that customers can reduce risks and see instant value from spending.
- ✓ Helps customers make better and faster decisions.

# Psycho Bunny

## Case Study
